

Send a Snowflake to Leicester!

Use our interactive snowflake generator to create a unique snowflake and send it to the *Snowflake Wall* on the big screen in Green Dragon Square in the centre of Leicester.

You can scan the QR code to open the snowflake generator on your mobile phone - or type the web address into your phone's browser.

bit.ly/2JZ8ci2

Draw a snowflake and press the 'SHARE' button to send it to the big screen. If you are not in Green Dragon Square then you can open the *Snowflake Wall* on your own computer by entering the web address **artthings.io/snowflakes**. You can then watch your snowflakes arrive – together with those made by other people.

If you agree to share your location when you share a snowflake then we will add it to a map of where the snowflakes came from.

Share the snowflake creator with your friends and family around the UK, and the world. Let's see how many people we can get to send a snowflake to Leicester!
